Re: Enhanced 911 Quarterly Report
Erratum

Dear Mr. Muleta,

Yesterday, Western Wireless Corporation electronically filed its quarterly report of its Enhanced 911 ("E911") plans and progress. An error was discovered on the report and Western Wireless is now filing an erratum to amend its previous filing.

Enclosed is a copy of the corrected E911 quarterly report of Western Wireless Corporation on its plans and progress regarding its deployment of E911 services. This report was filed electronically today via the Commission's Electronic Comment Filing System. Should you have any questions concerning Western Wireless and its efforts to deploy E911 services, please contact me directly. I can be reached at (425) 586-8432 or via email at Nathan.Glazier@wwireless.com.

Sincerely,

/signed/
Nathan Glazier
Manager of Regulatory Affairs
